The Creator Hub let me travel Southeast Asia through a free creative exchange, surrounded by great people and unforgettable energy.

It pushed me to try things I'd never done before and made long-term travel feel easy and exciting!

Mad Monkey made it possible to level up my videography while travelling on a budget. A free stay let me explore new places, try new things, and meet amazing people that turned into lifetime friends.

Top notch experience at the Creator Hub programme, honestly buzzing. Couldn't believe the exchange was completely sorted for free and we tried so much new stuff, can't argue with that!

Mad Monkey Uluwatu was an absolute dream. I stayed for free in exchange for content, but it honestly didn't feel like work at all. From the beautiful hostel to the fun nightly events, it was a truly memorable Mad Monkey experience! IYKYK!
